## VISEA becomes integrator partner of OneStream Software

**Paris, November 25, 2021** - OneStream Software today announced a strategic partnership with VISEA consulting to transform the Corporate Performance Management (CPM) processes of organizationally complex companies. This new partnership brings together a market-leading software publisher and a reference integrator with a high level of project, business and process expertise to improve the efficiency of the Finance function.

OneStream provides a unified CPM platform that simplifies and aligns statutory consolidation, planning, reporting, analysis and financial data quality. OneStream eliminates the risk and complexity of integrating, validating and reconciling data between multiple products, applications or modules, making non-integrated CPM suites a thing of the past.

"This partnership brings an innovative solution to the French CPM market, as well as a new form of support in the transformation of the Finance function," said Hugues Prestigio, Founder and Partner of VISEA consulting. "Convinced that OneStream is an innovative software solution that enables finance departments to optimize their processes and make their data more reliable, VISEA consulting has chosen to become an integrator partner for the solution. From now on, we will implement the OneStream unified platform with the help of our expert consultants, who will support our customers in their deployment projects."

"We're delighted to announce our partnership with VISEA consulting, which helps us expand our presence in France," said Eric Vidal, Sales Director Southern Europe at OneStream Software. "Every OneStream partner undergoes rigorous training to support our goal of 100% customer success. We believe that a strategic partnership with VISEA consulting is ideal to support the evolving needs of our customers in France and internationally, and together we will provide our joint customers with a CPM solution that eliminates inefficiencies and allows them to focus on their core business."

### About OneStream Software

OneStream Software provides a market-leading intelligent finance platform that reduces the complexity of financial operations. OneStream unleashes the power of finance by unifying Corporate Performance Management (CPM) processes such as planning, financial closing, statutory consolidation, reporting and analysis within a single, scalable solution. We provide the company with financial and operational information to support faster, more informed decision-making. All in a cloud platform designed to constantly evolve and adapt to your organization.

OneStream is an international software company backed by private investors KKR, D1 Capital Partners, Tiger Global and IGSB. With over 750 customers, 200 integrator partners and 900 employees, our core mission is to ensure 100% customer success.

### About VISEA consulting

A leader in the field of statutory consolidation and the integration of reporting and performance management solutions, VISEA consulting is unique on the French market: our end-to-end approach combined with 30 years' experience and a team of some sixty highly qualified consultants. We support our customers in their projects, from the design phase through to deployment of the CPM solution. VISEA consulting's strength lies in the combination of key assets: in-depth knowledge of international statutory consolidation rules and closing processes, the ability to advise on customer needs while taking into account best practices, and the proven ability to effectively lead significant projects with our team.

Our clients: 150 clients of various sizes and in a wide range of sectors, to whom VISEA consulting offers solutions tailored to each of their financial reporting needs (65% of CAC 40 listed companies are our clients). In addition to our French customers in all industries, we are successfully leading numerous implementation projects with major European groups involving international coordination and implementation.
